# VPN SETTING FOR MOBILE - iOS USER

STEP 1

For Mobile, use built-in client

STEP 2

Key in the following information in the client:
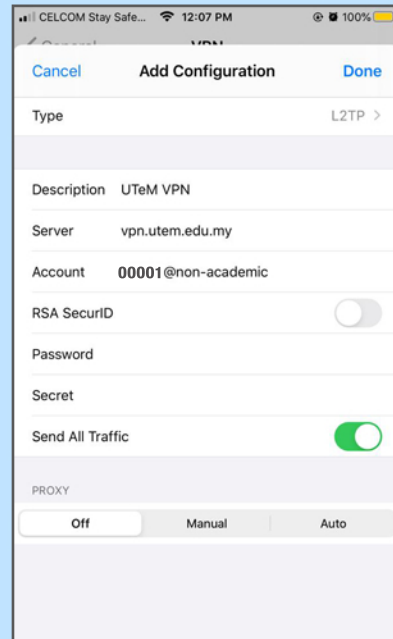

Server = vpn.utem.edu.my
Username = staff (staff no.) / student(metric no.)
Password = Your UTeM wifi password

Virtual Hub Name
i. **Staff** = academic or non-academic
ii. **Student** = post-graduate or under-graduate

Example:
Username = 00001@<your virtual hub name>
Password = ****
Secret = vpn

STEP 3

Start the connection by selecting connect button in the vpn client.
Successful connection will show connected status in the client.

STEP 4

Once connected, all your internet connection goes to UTeM network. The VPN icon will appear on the top of your mobile screen.
